Instructions

The CheckJet™ with Secure Card is a customized QuickBooks® check signing solution. Please perform the following steps to provide us with the documentation necessary to customize your CheckJet Secure Card to meet your check signing requirements.

1 Authorized Check Signature Capture

Using a black tip pen, sign both of the below boxes exactly the way your signature should appear on your printed checks.

2 Provide Voided Pre-Printed Check Sample

Please send a sample of your current pre-printed check stock. Mark VOID across the check. We align the placement of the signature to your existing check stock.

3 Mail Completed Worksheet and Check Stock

TypeHaus, Inc.
Attn: CheckJet Customization
655 Second Street
Encinitas, CA 92024

Signature Sample

Write two samples of your signature clearly in the spaces below. We will scan both samples to determine which sample produces the best final image. Please use a black, medium point pen and make solid lines.

The **signature should not touch** any part of the box.

Example Signature

Print Signer's Name:

Signature Sample 1
